

I have heard that the FCC is considering expanding the LPFM service by forcing FM translator services off the air. This would result in leaving my community without our K-Love signal, which we receive on 106.7. The programming on K-Love is positive and encouraging, just as they say. The Christian music is a delightful alternative to other types of music offered on my local stations.

Please do not expand the LPFM service at the expense of K-Love.

Very sincerely,
John W. Andrew
